Literary Seductions Frances Wilson, 2000 Exploring relationships between literary couples whose mutual obsession for writing resulted in equally explosive sexual relationships, Wilson imbues astute literary criticism with raging hormones. For Anais Nin and Henry Miller, Laura Riding and Robert Graves, and W.B. and George Yeats, among others, bodies and books became interchangeable.

The Publishers Weekly ,

The Courtesan's Revenge Frances Wilson, 2014-04-17 Harriette Wilson was the most desired and the most dangerous woman in Regency London. This highly acclaimed biography reveals for the first time the true story behind her sensational life and scandalous 'Memoirs'. When her former lovers - including much of the British aristocracy - turned against her, she knew exactly how to take revenge . . . 'A wonderful book. Much more than a biography of one attractive, witty woman, it offers a deft analysis of how Britain dealt with celebrity, sex, power and popular journalism in an age that bears remarkable similarities to our own . . . Frances Wilson is not only a first-rate scholar but also a wonderful storyteller who manages to get inside her namesake's famously creamy skin and tell her story with wit and understanding.' Kathryn Hughes, Mail on Sunday 'Lively and stylish . . . Reveals how dangerous the courtesan who operated at the heart of the political world was thought to be.' Anne Sebba, Spectator 'Harriette's story is deftly and stylishly told. It beats most novels with its rich ingredients.'

Frances Spalding, Daily Mail

Satan Wants Me Robert Irwin, 2007 Published in the UK in 1967, this is the US debut of this controversial novel in the form of a drug-drenched, satan-haunted diary. Peter meets Maud, and his initial contempt for her as a straight, boring hairdresser soon gives way to a kinky menage a trois, in which Sally, the trois, eagerly dons a dog collar and frilly apron and has herself tattooed with the words I am Sally, the slave of Maud and Peter. This is a vivid, utterly convincing portrait of life on the loopier fringes of the Sixties, black, compulsive and very, very funny, a prankish celebration of a time when the social, sexual, political and alchemical revolution seemed only a chord-change away, an extended postcard from a world turned upside down.

Critical Theory Today Lois Tyson, 2012-09-10 Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Science And Human Behavior B.F Skinner, 2012-12-18 The psychology classic—a detailed study of scientific theories of human nature and the possible ways in which human behavior can be predicted and controlled—from one of the most influential behaviorists of the twentieth century and the author of *Walden Two*. “This is an important book, exceptionally well written, and logically consistent with the basic premise of the unitary nature of science. Many students of society and culture would take violent issue with most of the things that Skinner has to say, but even those who disagree most will find this a stimulating book.” —Samuel M. Strong, *The American Journal of Sociology* “This is a remarkable book—remarkable in that it presents a strong, consistent, and all but exhaustive case for a natural science of human behavior...It ought to be...valuable for those whose preferences lie with, as well as those whose preferences stand against, a behavioristic approach to human activity.” —Harry Prosch, *Ethics*

Henry Miller Robert Ferguson, Robert Ferguson, MS, Cn, 2012-04 Bohemian, egoist and prophet of sensualism, Henry Miller remains to many writers and readers a literary lion. Born in Brooklyn in 1891, son of a tailor of German extraction, Miller would embrace a freewheeling existence that carried him through umpteen jobs and sexual encounters, providing rich source material for the novels he would write. Greenwich Village and Paris in the 1920s offered rich pickings, as did Miller's ten-year affair with Anais Nin. But he was 69 before *Tropic of Cancer* was legally published in the US and made him famous, almost 30 years from its composition and long after his peers had devoured it in contraband French editions. Robert Ferguson reveals Miller as an amalgam of vulnerability and insouciance, who endured thirty years of official opprobrium but won the respect of Orwell, T.S. Eliot and Lawrence Durrell, and readers by the thousand. 'This impressive biography [is] good, dirty fun.' *Observer* 'Engaging and perceptive.' *Economist* 'Lively and entertaining.' J.G. Ballard

The Happiest Man Alive Mary V. Dearborn, 1992-07 Drawing on previously unpublished materials plus interviews with Miller's friends and associates, Dearborn provides the definitive biography of this important literary figure who came into the

limelight in 1934, when his *Tropic of Cancer* was widely banned for its sexual passages. Miller became a symbol for the sexual revolution when the novel was finally published in the U.S. in 1961. 16-page photo insert.

Literary Culture in Early Modern England, 1630-1700 Ingo Berensmeyer, 2020-06-22 This book explores literary culture in England between 1630 and 1700, focusing on connections between material, epistemic, and political conditions of literary writing and reading. In a number of case studies and close readings, it presents the seventeenth century as a period of change that saw a fundamental shift towards a new cultural configuration: neoclassicism. This shift affected a wide array of social practices and institutions, from poetry to politics and from epistemology to civility.

The Female Thermometer Terry Castle, 1995 A collection of the author's essays on the history and development of female identity from the 18th to the early 20th centuries. Throughout the book are woven themes which are constant in Castle's work: fantasy, hallucination, travesty, transgression and sexual ambiguity.

Writer & Critic William A. Gordon, Henry Miller, 1968

The Man Who Mistook His Wife For A Hat: And Other Clinical Tales Oliver Sacks, 1998 Explores neurological disorders and their effects upon the minds and lives of those affected with an entertaining voice.

Liquid Modernity Zygmunt Bauman, 2013-07-10 In this new book, Bauman examines how we have moved away from a 'heavy' and 'solid', hardware-focused modernity to a 'light' and 'liquid', software-based modernity. This passage, he argues, has brought profound change to all aspects of the human condition. The new remoteness and un-reachability of global systemic structure coupled with the unstructured and under-defined, fluid state of the immediate setting of life-politics and human togetherness, call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history. This book is dedicated to this task. Bauman selects five of the basic concepts which have served to make sense of shared human life - emancipation, individuality, time/space, work and community - and traces their successive incarnations and changes of meaning. *Liquid Modernity* concludes the analysis undertaken in Bauman's two previous books *Globalization: The Human Consequences* and *In Search of Politics*. Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today.

On Curiosity Franck Cochoy, 2016-07-25 What draws us towards a shop window display? What drives us to grab a special offer, to enter the privileged circle of premium newspaper subscribers, to peruse the pages of an enticing magazine? Without doubt, it is curiosity - that essential force of everyday action which invites us to break from our habits and to become transported beyond our very selves. Curiosity (whether healthy or unhealthy) is one of the favourite tricks of market seduction. Capturing a public - attracting the attention of a reader, seducing a customer, meeting the expectations of a user, persuading a voter ... - often requires the construction of a set of technical devices that can play upon people's inner motivations. Cochoy invites us to take a sociological trip into these cabinets of curiosity, accompanied throughout by

Bluebeard, a fairy tale that is both a model of the genre and a pure curiosity machine. At once a work of history and economic anthropology, the book meticulously analyses the devices designed by markets to arouse, excite, and sustain curiosity: a window display, practices of 'teasing', packaging, bus shelters, mobile internet technologies, to name but a few. In the Bettencourt and Strauss-Kahn affairs and the Wikileaks controversy, Cochoy also uncovers the work of investigative journalism and its attention-grabbing 'scoops', revealing the secrets of the revealers of secrets. Available in English for the first time, this major work will arouse readers' curiosity over the course of its unusual and colourful journey. By the end, now better informed and more cautious, they will be able to identify the traps of which they are the target. So long as curiosity is kept at bay, at least!

Sexus Henry Miller, 2015-08-06 Sexus is the first volume of the scandalous trilogy The Rosy Crucifixion, Henry Miller's major life work Henry Miller called the end of his life in America and the start of a new, bohemian existence in 1930s Paris his 'rosy crucifixion'. His searing fictionalized autobiography of this time of liberation was banned for nearly twenty years. Sexus, the first volume in The Rosy Crucifixion trilogy, looks back to his early sexual escapades in Brooklyn, and his growing infatuation with the playful, teasing dance hall hostess who will become the great obsession of his life.

Steps to an Ecology of Mind Gregory Bateson, 2000 Gregory Bateson was a philosopher, anthropologist, photographer, naturalist, and poet, as well as the husband and collaborator of Margaret Mead. This classic anthology of his major work includes a new Foreword by his daughter, Mary Katherine Bateson. 5 line drawings.

Allegories of Reading Paul De Man, 1979-01-01 This important theoretical work by Paul de Man sets forth a mode of reading and interpretation based on exemplary texts by Rousseau, Nietzsche, Rilke, and Proust. The readings start from unresolved difficulties in the critical traditions engendered by these authors, and they return to the places in the text where those difficulties are most apparent or most incisively reflected upon. The close reading leads to the elaboration of a more general model of textual understanding, in which de Man shows that the thematic aspects of the texts--their assertions of truth or falsehood as well as their assertions of values--are linked to specific modes of figuration that can be identified and described. The description of synchronic figures of substitution leads, by an inner logic embedded in the structure of all tropes, to extended, narrative figures or allegories. De Man poses the question whether such self-generating systems of figuration can account fully for the intricacies of meaning and of signification they produce. Throughout the book, issues in contemporary criticism are addressed analytically rather than polemically. Traditional oppositions are put in question by a rhetorical analysis which demonstrates why literary texts are such powerful sources of meaning yet epistemologically so unreliable. Since the structure which underlies this tension belongs to language in general and is not confined to literary texts, the book, starting out as practical and historical criticism or as the demonstration of a theory of literary reading, leads into larger questions pertaining to the philosophy of language. Through elaborate and elegant close readings of poems by

Rilke, Proust's Remembrance, Nietzsche's philosophical writings and the major works of Rousseau, de Man concludes that all writing concerns itself with its own activity as language, and language, he says, is always unreliable, slippery, impossible....Literary narrative, because it must rely on language, tells the story of its own inability to tell a story....De Man demonstrates, beautifully and convincingly, that language turns back on itself, that rhetoric is untrustworthy.--Julia Epstein, Washington Post Book World The study follows out of the thinking of Nietzsche and Genette (among others), yet moves in strikingly new directions....De Man's text, almost certain to be endlessly provocative, is worthy of repeated re-reading.--Ralph Flores, Library Journal Paul de Man continues his work in the tradition of 'deconstructionist criticism, '... which] begins with the observation that all language is constructed; therefore the task of criticism is to deconstruct it and reveal what lies behind. The title of his new work reflects de Man's preoccupation with the unreliability of language. ... The contributions that the book makes, both in the initial theoretical chapters and in the detailed analyses (or deconstructions) of particular texts are undeniable.--Caroline D. Eckhardt, World Literature Today

The Culture of Love in China and Europe Paolo Santangelo, Gábor Boros, 2020-01-13 In *The Culture of Love in China and Europe* Paolo Santangelo and Gábor Boros offer a survey of the cults of love developed in the history of ideas and literary production in China and Europe between the 12th and early 19th century. They describe parallel evolutions within the two cultures, and how innovatively these independent civilisations developed their own categories and myths to explain, exalt but also control the emotions of love and their behavioural expressions. The analyses contain rich materials for comparison, point out the universal and specific elements in each culture, and hint at differences and resemblances, without ignoring the peculiar beauty and attractive force of the texts cultivating love.

The Death and Life of Great American Cities Jane Jacobs, 1998

Man, Play, and Games Roger Caillois, 2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.
