*What Does it Mean to Orient Oneself in Thinking?* Immanuel Kant (1724-1804),2014-03-17 From 1774 to about 1800, there were three intense philosophical and theological controversies underway in Germany, namely: Fragments Controversy, the Pantheism Controversy, and the Atheism Controversy. Kant's essay translated here is Kant's respond to the Pantheism Controversy. During this period (1770-1800), there was the Sturm und Drang (Storm and Urge (stress)) movement with thinkers like Johann Hamann, Johann Herder, Friedrich Schiller, and Johann Goethe; who were against the cultural movement of the Enlightenment (Aufklärung). Kant was on the side of Enlightenment (see his Answer the Question: What is Enlightenment? 1784). Table of Contents Translator's Short Preface for Historical Context (pages 3-4). **The Metalanguage of Translation** Yves Gambier,Luc van Doorslaer,2009 Let the meta-discussion begin, James Holmes urged in 1972. Coming almost forty years later years filled with fascinating and often unexpected developments in the interdiscipline of Translation Studies this volume offers the reader a multiplicity of meta-perspectives, while also moving the discussion forward. Indeed, the (re)production and (re)use of metalinguistic metaphors frame and partly determine our views on research, so such a discussion is vital -as it is in any scholarly discipline. Among other questions, the eleven contributors draw the reader s attention to the often puzzling variations of usage and conceptualization in both the theory and the practice of translation. First published as a special issue of Target 19:2 (2007), the volume runs the gamut of metalinguistic topics, ranging from terminology, localization and epistemological questions, through the Chinese perspective, to the conceptual mapping of the online Translation Studies Bibliography.

**Beside Myself** Sasha Marianna Salzmann,2019-02-05 Beside Myself is the disturbing and exhilarating story of a family

across four generations. At its heart is one woman's search for her twin brother. When Anton goes missing and the only clue is a postcard sent from Istanbul, Alissa leaves her life in Berlin to find him. Without her twin, the sharer of her memories and the mirror of her own self, Ali is lost. In a city steeped in political and social changes, where you can buy gender-changing drugs on the street, Ali's search—for her missing brother, for her identity—will take her on a journey for connection and belonging. *Beside Myself* is a brilliant literary debut about belonging, about family and love, and about the enigmatic nature of identity. 'Salzmann thoughtfully and cleverly addresses the themes of memory, identity, and migration, asking if language, nationality, or gender are important for our self-definition.' *World of Literature Today*

*Transfer Thinking in Translation Studies* Maud Gonne, Klaartje Merrigan, Reine Meylaerts, Heleen van Gerwen, 2020-11-16 The concept of transfer covers the most diverse phenomena of circulation, transformation and reinterpretation of cultural goods across space and time, and are among the driving forces in opening up the field of translation studies. Transfer processes cross linguistic and cultural boundaries and cannot be reduced to simple movements from a source to a target (culture or text). In a time of paradigm shifts, this book aims to explore the potential and interdisciplinary power of transfer as a concept and an analytical tool to account for complex cultural dynamics. The contributions in this book adopt various research angles (literary studies, imagology, translation studies, translator studies, periodical studies, postcolonialism) to study an array of entangled transfer processes that apply to different objects and aspects, ranging from literary texts, legal texts, news, images and identities to ideologies, power asymmetries, titles and heterolingualisms. By embracing a process-oriented way of thinking, all these contributions aim to open the 'black box' of transfer in the widest sense.

On the Other Side Mathilde Wolff-Mönckeberg, 2007 Features letters written (but never posted) by a 60 year-old woman, to her children living abroad, about the experience of living in Hamburg during the war. Discovered in a drawer in the 1970s, they were translated by her daughter, the late Ruth Evans, and first published in England and Germany in 1979.

*Teaching As A Reflective Practice* Ian Westbury, Stefan Hopmann, Kurt Riquarts, 2012-08-06 This volume presents a mix of translations of classical and modern papers from the German Didaktik tradition, newly prepared essays by German scholars and practitioners writing from within the tradition, and interpretive essays by U.S. scholars. It brings this tradition, which virtually dominated German curricular thought and teacher education until the 1960s when American curriculum theory entered Germany--and which is now experiencing a renaissance--to the English-speaking world, where it has been essentially

unknown. The intent is to capture in one volume the core (at least) of the tradition of Didaktik and to communicate its potential relevance to English-language curricularists and teacher educators. It introduces a theoretical tradition which, although very different in almost every respect from those we know, offers a set of approaches that suggest ways of thinking about problems of reflection on curricular and teaching praxis (the core focus of the tradition) which the editors believe are accessible to North American readers--with appropriate translation. These ways of thinking and related praxis are very relevant to notions such as reflective teaching and the discourse on teachers as professionals. By raising the possibility that the new tradition of Didaktik can be highly suggestive for thinking through issues related to a number of central ideas within contemporary discourse--and for exploring the implications of these ideas for both teacher education and for a curriculum theory appropriate to these new contexts for theorizing, this book opens up a gold mine of theoretical and practical possibilities.
