Crap CVs Jenny Crompton,2014-10-09 A HILARIOUS COMPILATION OF THE WORST JOB APPLICATIONS IMAGINABLE - A PERFECT STOCKING FILLER OR OFFICE SECRET SANTA GIFT THIS CHRISTMAS. Ever read a truly terrible job application? Or perhaps slightly exaggerated the truth on one of your own... We've all been there - but these are worse. So much worse. From overly-honest cover letters, embarrassing typos, and mortifying personal revelations, to awkward interview questions, misplaced self-confidence, and, of course, outright lies. This hilarious collection of shockingly dreadful job applications, crap CVs and excruciating interviews will have you laughing out loud, while also making you feel so much better about yourself - because at least you weren't ever this bad . . . Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. The Interview: Q. Is there anything about this job that you feel you might not be very good at? A. Dealing with people. Q. What person, living or dead, would you most like to meet? A. The living one.

Ultimate Guide to Tractors Jim Glastonbury,2010-04-15 Tractors, unique in their uses, have undergone thousands of changes over the years to become one of the most handy machines one can have, in any form. There have been so many amazing discoveries and inventions in the history of mankind that it would be difficult to place them in order of importance. Many have revolutionized the way society works, and this could also be said of the humble tractor. Without it, it would be impossible to produce the vast amounts of food required by society today, and for this reason alone it must qualify as a small but essential cog in the vast machine that is the modern world. The earliest pioneer machines used steam traction rather than the new-fangled internal combustion engines, but technological break-throughs came thick and fast: diesel engines, Harry Ferguson's revolutionary three-point-hitch, sophisticated hydraulics, and the wonders of electronics in our own time. Henry Ford made tractors that small farmers could afford, International Harvester pioneered the 1920s Farmall - the first tractor able to cope with row crops - while allis-Chalmers introduced pneumatic rubber tires in the 1930s. Nearly 30 years later the Steiger brothers invented an entirely new breed, the giant four-wheel-drive articulated super-tractor. This book covers more than a century of tractor-making and features tractors that are regarded with something like affection - Case, Fordson, Massey-Ferguson, Minneapolis-Moline, Versatile - they are all here and many others. Tractors of all shapes, sizes, ages, colors and types - they are here in all their resplendent glory.

Skylined Evelyn Lauer Laura,2018-02-05 SKYLINE is a collection of images and words, the collaborative effort of photographer Laura Lopez and writer Evelyn Lauer, shared in visual mediums of love and loss via landscape photography in Chicago. The artists met via Instagram, inspired by each other's work, and when they connected face-to-face, instantly realized they shared a story riveted by the common themes of love and loss. They embarked on a creative journey to turn their experiences into collaborative art. In some cases, Laura took the photos and sent them to Evelyn to write poems. In other instances, Evelyn wrote the words and Laura sought out pictures to match. Sometimes they would show up to a scene

together: Evelyn writing in her journal; Laura shooting with her Canon. While the project began two years ago with specific yous in mind, the yous shifted overtime, and sometimes the city of Chicago itself became the you, the great love story that holds all together. How do you live somewhere that reminds you of someone who no longer (or maybe never did) exists in your immediate life? How do you walk the streets, drive the roads, stare through the windows that hold not only memories but feelings, feelings you can't seem to shake, feelings that stir inside your bones? How does a place become more than what it once was? How do you learn to love the place despite the pain? Through the lens and via the pen, SKYLINED connects with viewers' hearts, exploring the emotions of attachment, remembrance, and unrequited love balanced with and juxtaposed against the architectural and urban landscape of Chicago.
