**Jeff Herman**

The Politically Incorrect Guide to Islam (And the Crusades) Robert Spencer,2005-07-01 Presents a critical analysis of the differences between Christianity and Islam and maintains that Islam contains a political agenda which endorses violence and aggression against non-Muslims.

**Onward Muslim Soldiers** Robert Spencer,2013-02-05 In Onward Muslim Soldiers, the author of Islam Unveiled reveals why the threat of violent jihad is growing daily, despite America's recent victory in Iraq. Spencer uncovers the cause of global violence as he goes straight to Muslim sources

**Politically Incorrect Guide to the Bible** Robert J. Hutchinson,2007-10-16 In the beginning, the Bible was regarded as the "Good Book," but today it is under relentless attack from left wing audiences, novelists, and screenwriters to justify their own political agendas. But fear not: award-winning religious journalist Robert J. Hutchinson refutes the mockers, skeptics, and deniers in his new book, The Politically Incorrect Guide to the Bible. Using historical evidence and thorough analysis, Hutchinson not only proves the Bible to be true (and the liberal Left wrong), but also takes the truth one step further—showing how the Bible built and shaped Western civilization. The Bible is the source for the Western ideas of justice, science, and democracy, Hutchinson argues, and without it, Western civilization would not exist.

**Politically Incorrect Guide to The South** Clint Johnson,2007-01-17 The latest installment in the New York Times bestselling Politically Incorrect Guide series expands on the pro-South slant of the hugely successful Politically Incorrect Guide to American History. Author Clint Johnson shows why the South, with its emphasis on traditional values, family, faith, military service, good manners, small government, and independent-minded people, should certainly rise again!

**Politically Incorrect Guide to the Middle East** Martin Sieff,2008-01-28 The Middle East is almost never off the front pages, yet most Americans know little about the region. Why? The mainstream media and Ivy League academics, instead of helping, only make matters worse by casting everything in the usual politically correct mold: Arab terrorists are just desperate freedom fighters, and the region's one free democracy -- Israel -- is the oppressor, not least because of its alliance with America. And if Islamic extremism is a problem, the establishment tells us, it's only because it's rooted in that source of

all evils: religion. A different strain of political correctness has seeped into some minds on the right -- most notably the Bush administration, which, so ready to buy into the egalitarian myths we are all taught, believed that Western-style democracy could flourish anywhere. Now, in *The Politically Incorrect Guide to the Middle East*, veteran Middle East correspondent Martin Sieff puts the lie to all these myths and clichés, giving you everything you need to know about the region to understand its past, its present, and its possible future.

Politically Incorrect Guide to Science Tom Bethell, 2005-11-25 If the globe is warming, is mankind responsible, or is the sun? Such a statement does not appear out of place in Bethell's entertaining account of how modern science is politically motivated and in desperate need of oversight. Bethell writes in a compulsively readable style, and although he provides legitimate insight into the potential benefits of nuclear power and hormesis, some readers will be turned off when he attempts to disprove global warming and especially evolution. Throughout the book, Bethell makes questionable claims about subjects as varied as AIDS (careful U.S. studies had already shown that at least a thousand sexual contacts are needed to achieve heterosexual transmission of the virus) and extinction (It is not possible definitely to attribute any given extinction to human activity), and backs up his arguments with references to the music magazine SPIN and thriller-writer Michael Crichton. Ironically, Bethell ends up proving his own premise by producing a highly politicized account of how liberal intellectuals and unchecked government agencies have created a white-coated priesthood whose lust for grant money has driven them to produce fearsome (but in Bethell's view, false) tales of ozone destruction and AIDS pandemics. In the end, this book is unlikely to sway readers who aren't already in Bethell's ideological camp, as any points worthy of discussion get lost in the glut of unsourced claims that populate this latest installment of *The Politically Incorrect Guide* series.

Did Muhammad Exist? Robert Spencer, 2021-07-13 Is there any sound historical evidence that the prophet of Islam actually existed, or is the entire story of Muhammad fable or fiction? It is a question that few have thought—or dared—to ask. Virtually everyone, Muslim and non-Muslim alike, takes for granted that the prophet of Islam lived as a prophet, as well as a political and military leader, in seventh-century Arabia. But this widely accepted story begins to crumble on close examination. In his blockbuster New York Times bestseller *The Truth about Muhammad*, historian and Islam expert Robert Spencer revealed the often shocking contents of Islamic teachings about Muhammad. Now, in this newly revised and expanded version of *Did Muhammad Exist?*, he lays bare those teachings' surprisingly shaky historical foundations. This updated and enlarged version of this acclaimed book examines even more striking and compelling evidence that the story of Muhammad, who for so long was assumed to have lived in the "full light of history," could be more myth and legend than historical fact. Spencer meticulously examines historical records and archaeological findings, pioneering new scholarship to reconstruct what we can know about Muhammad, the Qur'an, and the early days of Islam. The evidence he presents challenges the most fundamental assumptions about Islam's origins.

*Politically Incorrect Guide to Hunting* Frank Minter, 2007-08-21 Why the Left's anti-hunting propaganda is dead wrong! Nothing is more hated--and more misunderstood--by the trendy Left than hunting. But now intrepid hunter and pro-hunting activist Frank Minter sets the record straight. In *The Politically Incorrect Guide(tm) to Hunting*, he details the concrete benefits that hunting provides to all of us--even how it helps the environment. Speaking with wildlife biologists, hunters, farmers, anti-hunters, and victims of animal attacks, Minter explains how banning hunting negatively affects wildlife populations and conservation. Minter's fearless, politically incorrect take on hunting lays out the facts that liberal environmentalists don't want you to know.

**Politically Incorrect Guide to Darwinism and Intelligent Design** Jonathan Wells, 2006-08-21 Darwin is an emperor who has no clothes— but it takes a brave man to say so. Jonathan Wells, a microbiologist with two Ph.D.s (from Berkeley and Yale), is that brave man. Most textbooks on evolution are written by Darwinists with an ideological ax to grind. Brave dissidents—qualified scientists—who try to teach or write about intelligent design are silenced and sent to the academic gulag. But fear not: Jonathan Wells is a liberator. He unmasks the truth about Darwinism— why it is wrong and what the real evidence is. He also supplies a revealing list of Books You're Not Supposed to Read (as far as the Darwinists are concerned) and puts at your fingertips all the evidence you need to challenge the most closed-minded Darwinist.

**Politically Incorrect Guide to Jihad** William Kilpatrick, 2016-09-26 A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

**The Politically Incorrect Guide to the British Empire** H. W. Crocker, III, 2011-10-24 Presents an irreverent and humorous look at the four-hundred-year history of the British empire.

**Politically Incorrect Guide to Global Warming and Environmentalism** Christopher C. Horner, 2007-02-12 In *The Politically Incorrect Guide(tm) to Global Warming and Environmentalism*, Christopher C. Horner tears the cover off the Left's manipulation of environmental issues for political purposes--and lays out incontrovertible evidence for the fact that catastrophic man-made global warming is just more Chicken-Little hysteria, not actual science. He explains why, although Al Gore and his cronies among the media elites and UN globalists endlessly bleat that global warming is an unprecedented global crisis, they really think of it as a dream come true. It's the ideal scare campaign for those who hate capitalism and love big government.

*Politically Incorrect Guide to Islam (And the Crusades)* Robert Spencer, 2005-08-01 The courageous Robert Spencer busts myths and tells truths about jihadists that no one else will tell. —MICHELLE MALKIN While many choose to simply blame the West for provoking terrorists, Robert Spencer's new book *The Politically Incorrect Guide to Islam (and the Crusades)*<sup>™</sup> reveals why it is time to ignore political correctness and identify the enemy - if we hope to ever defeat them. In a fast-paced, politically incorrect tour of Islamic teachings and Crusades history, Spencer reveals the roots of Islamic violence and hatred.

Spencer refutes the myths popularized by left-wing academics and Islamic apologists who justify their political agendas with contrived historical “facts.” Exposing myth after myth, *The Politically Incorrect Guide to Islam (and the Crusades)*™ tackles Islam’s institutionalized mistreatment of non-Muslims, the stifling effect Islam has on science and free inquiry, the ghastly lure of Islam’s X-rated Paradise for suicide bombers and jihad terrorists, the brutal Islamic conquests of the Christian lands of the Middle East and North Africa, and more. In *The Politically Incorrect Guide to Islam (and the Crusades)*™, you will learn: How Muhammad did not teach “peace and tolerance”—instead he led armies and ordered the assassination of his enemies Why American Muslim groups and left-wing academics are engaged in a huge cover-up of Islamic doctrine and history How today’s jihad terrorists following the Qur’an’s command to make war on Jews and Christians have the same motives and goals as the Muslims who fought the Crusaders Why the Crusades were not acts of unprovoked aggression by Europe against the Islamic world, but a delayed response to centuries of Muslim aggression What must be done today—from reading the Qur’an to reclassifying Muslim organizations—in order to defeat jihad terrorists

*The Politically Incorrect Guide to English And American Literature* Elizabeth Kantor, 2006-10-01 Citing declining coverage of classic English and American literature in today’s schools, a politically incorrect primer challenges popular misconceptions while introducing the works of such core masters as Shakespeare, Faulkner, and Austen, in a volume that is complemented by a syllabus and a self-study guide. Original.

**Politically Incorrect Guide to the Civil War** H. W. Crocker, 2008-10-21 *The Politically Incorrect Guide to the Civil War* is a joyful, myth-busting, rebel yell that shatters today’s Leftist and demeaning stereotypes about the South and the Civil War.

**Politically Incorrect Guide to Capitalism** Robert P. Murphy, 2007-04-09 Most commonly accepted economic facts are wrong Here’s the unvarnished, politically incorrect truth. The liberal media and propagandists masquerading as educators have filled the world—and deformed public policy—with politically correct errors about capitalism and economics in general. In *The Politically Incorrect Guide*(tm) to Capitalism, myth-busting professor Robert P. Murphy, a scholar and frequent speaker at the Ludwig von Mises Institute, cuts through all their nonsense, shattering liberal myths and fashionable socialist clichés to set the record straight.

**The Truth About Muhammad** Robert Spencer, 2006-09-15 Muhammad: a frank look at his influential (and violent) life and teachings In *The Truth about Muhammad*, New York Times bestselling author and Islam expert Robert Spencer offers an honest and telling portrait of the founder of Islam—perhaps the first such portrait in half a century—unbounded by fear and political correctness, unflinching, and willing to face the hard facts about Muhammad’s life that continue to affect our world today. From Muhammad’s first revelation from Allah (which filled him with terror that he was demonpossessed) to his deathbed (from which he called down curses upon Jews and Christians), it’s all here—told with extensive documentation from

the sources that Muslims themselves consider most reliable about Muhammad. Spencer details Muhammad's development from a preacher of hellfire and damnation into a political and military leader who expanded his rule by force of arms, promising his warriors luridly physical delights in Paradise if they were killed in his cause. He explains how the Qur'an's teaching on warfare against unbelievers developed-with constant war to establish the hegemony of Islamic law as the last stage. Spencer also gives the truth about Muhammad's convenient revelations justifying his own licentiousness; his joy in the brutal murders of his enemies; and above all, his clear marching orders to his followers to convert non-Muslims to Islam-or force them to live as inferiors under Islamic rule. In *The Truth about Muhammad*, you'll learn - The truth about Muhammad's multiple marriages (including one to a nine-year-old) - How Muhammad set legal standards that make it virtually impossible to prove rape in Islamic countries - How Muhammad's example justifies jihad and terrorism - The real Satanic verses incident (not the Salman Rushdie version) that remains a scandal to Muslims - How Muhammad's faulty knowledge of Judaism and Christianity has influenced Islamic theology--and colored Muslim relations with Jews and Christians to this day. Recognizing the true nature of Islam, Spencer argues, is essential for judging the prospects for largescale Islamic reform, the effective prosecution of the War on Terror, the democracy project in Afghanistan and Iraq, and immigration and border control to protect the United States from terrorism. All of which makes it crucial for every citizen (and policymaker) who loves freedom to read and ponder *The Truth about Muhammad*

*The Catholic World Report*, 2006

**Imagined Enemies** Steve Nowak, 2010-04-06 Seminar paper from the year 2010 in the subject Politics - Topic: Peace and Conflict, Security, grade: 1,0, East Tennessee State University (History Department), course: Origins of Problems in the Middle East, language: English, abstract: In September 2001, shortly after the terrorist attacks on America, President George W. Bush announced his "Crusade" against terrorism - a Crusade that was aimed mainly at Islamic fundamentalists. One Millennium after the first Crusades, that conflict seemed still going on and the connection to that fateful day in September 2001 was drawn easily. The fight had been going on since the first expansion of Islam into the former Christian world. An everlasting conflict between Christians in the West and Muslims in the East seems so obvious that we take it for self-evident when we perceive our political world. Authors have written and modified it repeatedly. Not long ago, Bernard Lewis wrote his *Islam and the West* telling us about the history of these cultures as a history of military conflict. One more famous book takes that approach to take a look at the recent development in world politics and predict its *Clash of Civilizations*. Huntington shows the post-Cold War world by explaining global politics along cultural lines. One of the most important of these lines is, not surprisingly, the one between the Islamic and the Western Civilizations. But what if we take a closer look on what appears to be behind the ambiguous history of Crusades and Holy Wars. Are there perhaps more sophisticated explanations. We have to differentiate the motives for the main campaigns in an assumed "continuous conflict."

Therefore we will see over the Crusades, the fierce war at the front between Christendom and Islam under Ottoman rule and finally the modern antagonisms to verify or falsify that theory of a causally determined cultural conflict.
