*Teaching Physical Education* Muska Mosston, Sara Ashworth, 1994 The definitive source for the groundbreaking ideas of the Spectrum of Teaching Styles introduced by Mosston and Ashworth and developed during 35 years in the field. This book offers teachers a foundation for understanding the decision-making structures that exist in all teaching/learning environments and for recognizing the variables that increase effectiveness while teaching physical education. In this thoroughly revised and streamlined edition, all chapters have been updated to include hundreds of real-world examples, concise charts, practical forms, and concrete suggestions for deliberate teaching so that teachers can understand their classrooms' flow of events, analyze decision structures, implement adjustments that are appropriate for particular classroom situations, and deliberately combine styles to achieve effective variations. As in prior editions, individual chapters describe the anatomy of the decision structure as it relates to teachers and learners, the objectives (O-T-L-O) of each style, and the application of each style to various activities and educational goals. For physical education teachers.

The Last Foundling Tom Mackenzie, 2014-03-13 A deeply moving memoir from one of the last children to be taken in by the Foundling Hospital, London. When she fell pregnant in London in 1938, Jean knew that she couldn't keep her baby. The unmarried daughter of an elder in the Church of Scotland, she would shame her family if she returned to the north in such a condition. Scared and alone in a city on the brink of war, she begged the Foundling Hospital to give her baby the start in life

that she could not. The institution, which had been providing care for deserted infants since the eighteenth century, allowed Jean to nurse her son for nine weeks, leaving her heartbroken when the time came to let him go. But little Tom knew nothing of her love as he grew up in the Foundling Hospital - which, during years of the Second World War, was more like a prison than a children's home. Locked in and subject to public canings and the sadistic whims of the older boys, there was no one to give him a hug, no one to wipe away his tears. A true story of desertion and neglect, this is also a moving account of survival from one of the very last foundlings. It stands as a testament to the love that ultimately led a family back together.

The Old Straight Track Alfred Watkins,1988-01-01 First published in 1925 THE OLD STRAIGHT TRACK remains the most important source for the study of ancient tracks or leys that criss-cross the British Isles- a fascinating system which was old when the Romans came to Britain. First in the Herefordshire countryside, and later throughout Britain, Alfred Watkins noticed that beacon hills, mounds, earthworks, moats and old churches built on pagan sites seemed to fall in straight lines. His investigation convinced him that Britain was covered with a vast network of straight tracks, aligned with either the sun or the path of a star. Although traces of this network can be found all over the country, the principles behind the ley system remain a mystery. Are they the legacy of a prehistoric scientific knowledge which is now all but lost? And was their purpose secular or religious?

*The Economics of Sports* Michael A. Leeds,Peter von Allmen,2016-05-23 For undergraduate courses in sports economics, this book introduces core economic concepts developed through examples from the sports industry. The sports industry provides a seemingly endless set of examples from every area of microeconomics, giving students the opportunity to study economics in a context that holds their interest. The Economics of Sports explores economic concepts and theory of industrial organization, public finance, and labor economics in the context of applications and examples from American and international sports.

Bold Girls Rona Munro,2019-06-25 It's 1991 in West Belfast. With their husbands either locked up or killed, Marie, Cassie and Nora are just trying to get on with their lives, despite the bombs, burning buses and soldiers trampling the flower beds. Life must go on - after all, there's still laundry to do and kids to feed. But when a mysterious young woman turns up on Marie's doorstep and disrupts their girls' night out, the devastating revelations which ensue will shatter dreams and threaten their friendship irrevocably. Sharply funny, moving, yet never shying from the harsh realities of life during the Troubles, Bold Girls is a celebration of women's strength under siege. It was first performed by 7:84 Scottish People's Theatre at Cumbernauld Theatre in 1990 and on tour. The play announced Rona Munro as one of the best playwrights of her generation, winning her the Susan Smith Blackburn Prize for 1990-91. This new edition was published alongside the revival at Theatre by the Lake, Keswick, in June 2018.

*Defending Air Bases in an Age of Insurgency* Shannon Caudill,Air University Press,2014-08 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer.
