Why the Haves Come Out Ahead Marc Galanter,2014-09-15 This is the fortieth anniversary edition of a classic of law and society, updated with extensive new commentary. Drawing a distinction between experienced “repeat players” and inexperienced “one shotters” in the U.S. judicial system, Marc Galanter establishes a recognized and applied model of how the structure of the legal system and an actor’s frequency of interaction with it can predict outcomes. Notwithstanding democratic institutions of governance and the “majestic equality” of the courts, the enactment and implementation of genuinely redistributive measures is a hard uphill struggle. In one of the most-cited essays in the legal literature, Galanter incisively demolishes the myth that courts are the prime equalizing force in American society. He provides a penetrating analysis of the limitations and possibilities of courts as the source and engine of large-scale social change. Galanter’s influential article is now available in a convenient, affordable, and assignable book (in print and ebooks), with a new introduction by the author that explains the origins and aftermath of the original work. In addition, it features his 2006 article applying the original thesis to real-world dilemmas in legal structure and consequence today. The collection also adds a new Foreword by Shaubin Talesh of the University of California-Irvine and a new Afterword by Robert Gordon of Stanford. As Gordon points out, “The great contribution of the article was that it went well beyond local and contingent political explanations to locate obstacles to social reform and redistributive policies in the institutional structure of the legal system itself.” Gordon details ways in which Galanter’s prophecies have come true and even worsened over four decades. Talesh catalogs the article’s place in legal lore: “seminal, blockbuster, canonical, game-changing, extraordinary, pivotal, and noteworthy.” Talesh introduces how repeat players gain advantages in the legal system and how “Galanter set out an important agenda for legal scholars, sociologists, political scientists, and economists. In short, “every law and legal studies student should be required to read the article because it contextualizes the procedural system as something more than a set of rules that should be memorized and mechanically applied.” A powerful new addition to the Classics of Law & Society Series by Quid Pro Books. Features active contents, linked notes, active URLs, and linked Index.

Sick Schools David V. Anderson,2020-01-10 Who's afraid of for-profit education? Those who work in non-profit or government owned and operated schools. Many parents and other stakeholders have been made fearful by this education establishment. What's more important to humans: nutrition or education? Nutrition is more important because it is the prerequisite for other human activities, including education. What organizations provide food and who pays for the food? Food is provided by for-profit farmers, for-profit processors, for-profit wholesalers, and for-profit retailers. Most food is purchased with the consumers' own money, but a significant amount is purchased by low-income individuals using food stamps. Why can't education be provided similarly using education stamps? We trust for-profit enterprises to provide our food. Why can't we trust for-profit enterprises to provide K-12 education? Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education. Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for-profit K-12 education sector would please and amaze its customers.
