The Vision of Islam Sachiko Murata, 2017-05-24 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought!

Dominion Tom Holland, 2019-09-05 The Sunday Times bestseller, with a new introduction by Nassim Nicholas Taleb 'If great books encourage you to look at the world in an entirely new way, then *Dominion* is a very great book indeed' Dominic Sandbrook, Sunday Times History Book of the Year 'Terrific: bold, ambitious and passionate' Peter Frankopan *Dominion* tells the epic story of how those in the West came to be what they are, and why they think the way they do. Ranging from Moses to Merkel, from Babylon to Beverley Hills, from the emergence of secularism to the abolition of slavery, it explores why, in a society that has become increasingly doubtful of religion's claims, so many of its instincts remain irredeemably Christian. Christianity's enduring impact is not confined to churches. It can be seen everywhere in the West: in science, in secularism, in gay rights, even in atheism. It is - to coin a phrase - the greatest story ever told. PRAISE FOR *DOMINION* 'A masterpiece of scholarship and storytelling' John Gray, *New Statesman* 'Filled with vivid portraits, gruesome deaths and moral debates... Holland has all the talents of an accomplished novelist' Terry Eagleton, *Guardian* 'This extraordinary book is vintage Tom Holland: history boldly and elegantly retold' Diarmaid MacCulloch

We Need to Talk about Religious Education Mark Chater, Mike Castelli, 2017-10-19 Although Religious Education (RE) is a legal requirement in UK schools, it is an oft-neglected and misunderstood subject. It is important to seriously re-think this key subject at this time of low religious literacy and rising extremism, to protect communities from the consequences of hatred and misunderstanding. This book promotes a public discussion of what exactly is needed from a new model of RE within our education system to benefit wider society. In this edited collection, the chapters are diverse and future-facing, informed by theory and practice and written by a variety of key leading practitioners and emerging national leaders in RE. It covers the most pressing and urgent issues for RE such as hate speech, educational reform, and the weakening of moderate religious institutions. Linking the chapters together with recurring themes and joining passages, the editors create a flowing and coherent discussion about the state of RE and offer choices and routes for readers to consider in terms of its future course.

Religions and Development Emma Tomalin, 2013-07-03 Religion has been excluded from development studies for decades. Religious traditions have contributed greatly towards development work, yet major international players have tended to ignore its role. Recent years have shown a noticeable shift in development policy, practice and research to recognize religion as a relevant factor. This text provides a comprehensive insight into different approaches towards the understanding the relationships between religions and development studies, policy and practice. It guides readers through current debates, presenting, explaining and critically evaluating a broad range of literature and locating it within a theoretical context. The text explores the role of religion within development, from positive contributions, such as the important role that many 'faith-based organizations' play in education or health care, to more complicated and contested notions of impact, such as religiously inspired violence or gender inequality. The book begins with three background chapters, outlining the relevance of religions for development studies, policy and practice, and introducing the reader to the study of 'development' and of 'religions'. Following these, the focus then shifts to examine a number of thematic areas, including religion, gender and development, and the implications of the 'rise of religion' for mainstream development studies, policy and practice in the 21st century. Each chapter contains a range of features to assist undergraduate learning, including learning objectives for each chapter, discussion of key concepts, summaries, discussion questions, further reading and websites. The book also contains over sixty boxed case studies to provide further definition, explanation, and examples of the interactions between religions and development globally. This innovative text presents religions as something that can both obstruct and aid development, encouraging readers to engage critically with the multiple ways that religion impacts on both the conceptualization of development as well the resulting project interventions. This will be of interest to undergraduate,

postgraduate students and scholars interested in religious studies, development studies, and the broader study of societies and cultures.

Hinduism - Ritual, Reason and Beyond Ashok Mishra, 2019-08-03 The book is journey through 5000 years of evolution of Hinduism, and is outcome of seven years of study to understand the roots of Hinduism. Tracing the genesis of Hinduism to pre-Indus Valley period, the book explains Hindu, Hinduism and Sanatana Dharma, before it takes one through Hinduism's oldest scriptures - the four Vedas, the four components of each Veda, and what they contain. How all original translations of Vedic texts were done by Western Sanskrit scholars, and why their works have left scope for doubt about the fidelity of translations. The yajnas (yagya) like Ashvamedha, Rajsooya, Vajpeya, etc., about which we only hear on TV serials and talk shows, have been demystified. The reader will be taken aback reading the sheer size and scale of Soma yajna, described step by step, in great detail. Hinduism's journey to the Age of Reason, the Upanishads, its encounter with Buddhism, and its transformation into idol worshipping society with many gods and a multitude of stories about its millions of gods is lucidly explained. Puranas, what they contain and what was the reason they were created, has been described and explained next. Hinduism's journey to its modern form - idol worship, the modern puja, detailed description of puja and Sanskaras like Vivaha, their detailed description, the meaning of each action and how they are conducted, the gift to the priest, types of idols, their consecration, all are explained to help a reader understand the why and the how of what we do as a Hindu. The book concludes with a discussion of - Do mantras have power? & Do rituals have meaning?

Spirituality and Psychiatry Christopher C. H. Cook, Andrew Powell, 2022-10-20 Spirituality and Psychiatry addresses the crucial but often overlooked relevance of spirituality to mental well-being and psychiatric care. Rabindranath Tagore's Journey as an Educator Mohammad A. Quayum, 2022-12-20 This book looks at Rabindranath Tagore's, experiments and journey as an educator and the influence of humanistic worldviews, nationalism and cosmopolitanism in his philosophy of education. It juxtaposes the educational systems and institutions set up by the British colonial administration with Tagore's pedagogical vision and schools in Santiniketan, West Bengal—Brahmacharya Asram (1901), Visva-Bharati University (1921) and Sriniketan Institute of Village Reconstruction (1922). An educational pioneer and a poet-teacher, Tagore combined nature and culture, tradition and modernity, East and West, in formulating his educational methodology. The essays in this volume analyse the relevance of his theories and practice in encouraging greater cultural exchange and the dissolution of the walls between classrooms and communities. This book will be useful for scholars and researchers of education, Tagore studies, literature, cultural studies, sociology of education, South Asian studies and colonial and postcolonial studies.

Indigenous Practice and Community-Led Climate Change Solutions Rani Muthukrishnan, Ranjan Datta, 2023-12-01 This book centers Indigenous knowledge and practice in community-led climate change solutions. This book will be one of the first academic books to use the consciousness framework to examine and explain humans' situatedness and role in maintaining ecosystems' health. Drawing on teachings from the Indigenous Adi-Shaiva community, the authors present up-to-date research on meanings and implications of South Asian traditional cosmic knowledge, which focuses on relationality and spirituality connected to climate change. This knowledge can create innovative climate change solutions in areas including land, water, traditional management, sustainability goals and expectations, and state development projects. Overall, this book provides an innovative framework for nonviolent climate solutions, which has its foundations in a traditional cosmic and consciousness-based context. This book, which aims to bridge the gap between Indigenous and Western perspectives by re-educating researchers and decolonizing popular climate change solutions, will be of great interest to students and scholars studying climate change, conservation, environmental anthropology, and Indigenous studies on a broader scale.

Communalism in Postcolonial India Mujibur Rehman, 2024-11-01 This book reconceptualises the idea of communalism in independent India. It locates the changing contours of politics and religion in the country from the colonial times to the present day, and makes an important intervention in understanding the relationship between communalism and communal violence. It evaluates the role of state, media, civil societies, political parties, and other actors in the process as

well as ideas such as secularism, nationalism, minority rights and democracy. Using new conceptual tools and an interdisciplinary approach, the work challenges the conventional understanding of communalism as time and context independent. This second edition includes a Foreword by Romila Thapar and an Afterword by Dipesh Chakrabarty, along with a new Introduction which reevaluate the trajectory of communal politics in contemporary India, and question how secularism has come to be understood today. This topical volume will be useful to scholars and researchers in South Asian politics, political science, history, sociology and social anthropology, as well as the interested general reader.

Religion in Practice Swami Prabhavananda, 2019

Contemporary Hinduism P. Pratap Kumar, 2013 Most overviews of Hindu belief and practice follow a history from the ancient Vedas to today. Such approaches privilege Brahmanical traditions and create a sense of Hinduism as a homogenous system and culture, and one which is largely unchanging and based solely on sacred texts. In reality, modern Hindu faith and culture present an extraordinary range of dynamic beliefs and practices. Contemporary Hinduism aims to capture the full breadth of the Hindu worldview as practised today, both in the sub-continent and the diaspora. Global and regional faith, ritualised and everyday practice, Brahmanical and non-Brahmanical belief, and ascetic and devotional traditions are all discussed. Throughout, the discussion is illustrated with detailed case material and images, whilst key terms are highlighted and explained in a glossary. Contemporary Hinduism presents students with a lively and engaging survey of Hinduism, offering an introduction to the oldest and one of the most complex of world religions.
