Experiential Learning David A. Kolb,2014-12-17 Experiential learning is a powerful and proven approach to teaching and learning that is based on one incontrovertible reality: people learn best through experience. Now, in this extensively updated book, David A. Kolb offers a systematic and up-to-date statement of the theory of experiential learning and its modern applications to education, work, and adult development. *Experiential Learning, Second Edition* builds on the intellectual origins of experiential learning as defined by figures such as John Dewey, Kurt Lewin, Jean Piaget, and L.S. Vygotsky, while also reflecting three full decades of research and practice since the classic first edition. Kolb models the underlying

structures of the learning process based on the latest insights in psychology, philosophy, and physiology. Building on his comprehensive structural model, he offers an exceptionally useful typology of individual learning styles and corresponding structures of knowledge in different academic disciplines and careers. Kolb also applies experiential learning to higher education and lifelong learning, especially with regard to adult education. This edition reviews recent applications and uses of experiential learning, updates Kolb's framework to address the current organizational and educational landscape, and features current examples of experiential learning both in the field and in the classroom. It will be an indispensable resource for everyone who wants to promote more effective learning: in higher education, training, organizational development, lifelong learning environments, and online.

**When the Adults Change, Everything Changes** Paul Dix, 2017-06-06 You can buy in the best behaviour tracking software, introduce 24/7 detentions or scream 'NO EXCUSES' as often as you want but ultimately the solution lies with the behaviour of the adults. It is the only behaviour over which we have absolute control. Drawing on anecdotal case studies, scripted interventions and approaches which have been tried and tested in a range of contexts, from the most challenging

urban comprehensives to the most privileged international schools, behaviour training expert and Pivotal Education director Paul Dix advocates an inclusive approach that is practical, transformative and rippling with respect for staff and learners. An approach in which behavioural expectations and boundaries are exemplified by people, not by a thousand rules that nobody can recall. When the Adults Change, Everything Changes illustrates how, with their traditional sanction- and exclusion-led methods, the 'punishment brigade' are losing the argument. It outlines how each school can build authentic practice on a stable platform, resulting in shifts in daily rules and routines, in how we deal with the angriest learners, in restorative practice and in how we appreciate positive behaviour. Each chapter is themed and concludes with three helpful checklists: Testing, Watch out for and Nuggets designed to help you form your own behaviour blueprint. Throughout the book both class teachers and school leaders will find indispensable advice about how to involve all staff in developing a whole school ethos built on kindness, empathy and understanding. Suitable for all head teachers, school leaders, teachers, NQTs and classroom assistants in any phase or context, including SEND and alternative provision settings who are looking to upgrade their own classroom management or school behaviour plan. When the Adults Change Everything Changes was a silver winner 2017 Foreword INDIES Awards in the Education category. Named one of Book Authority's best education reform books of all time. This book takes a holistic view of teacher development, examining the contexts and conditions of teaching: school leadership and culture; teachers' lives and histories; change; teacher learning, competence and expertise; and the moral purposes of teaching. Day looks at the conditions under which teacher development may be enhanced, and brings together research and other information, from the UK and overseas.
