

Solarian Legacy Metascience And A New Renaissance

Peter Swirski

Solarian Legacy Paul Von Ward,1998-03 With civilization in an era of fragmentation and transition, a few thinkers paint a new vision with insight and clarity. Prominent among them, Paul Von Ward in *Solarian Legacy* brings order to intellectual and experienced chaos, grounding humans in a truer sense of their history, capacities, and potential destiny. Paul Von Ward draws not only on the discoveries of cutting edge science, but compels us to recall the lost wisdom of ages past. He makes sense of such disparate phenomena as mysterious prehistoric artifacts and modern UFOs, the healing power of prayer and quantum mechanics, gaps in the geological record and in conventional science, mental aberrations and parapsychology, and dreams and the physical senses, all in the context of a unified and universal consciousness. His analyses offer plausible explanations for societal violence, personal illnesses, institutional stagnation, and technological breakdowns

Homeplanet Defense Martin A. Schwab,2014-05-13 Constructing a global currency based on the generation of knowledge can better tap abundant energy sources and the productive power of the human spirit. By exploring new worlds, nations can finally achieve an active peace on Earth. *Homeplanet Defense* calls for preempting multiple threats to the human family through space-based strategies, aided by the vast resources and expertise in all military industrial complexes - transformed into explorative information networks. This work adds to an ongoing paradigm shift toward a new realism in the practice and study of international relations, to protect the global chessboard multilaterally rather than to dominate it unilaterally or through alliances. This small book is packed dense with new ideas and concepts. It is best read slowly, one section at a time whether one is already a leader of positive change, a student or a global citizen who is discontent with the way the world works now.

Primary Perception Cleve Backster,2003 This is the only book by Cleve Backster himself, describing 36 years of research in biocommunication, observed electrical responses in plant life and other living organisms. All life forms have the capability of responding to one another, from plants and bacteria to foods and animal cells. Most amazing is his work with human leukocytes. These discoveries have opened up a new paradigm in science, ecology and healing.

Atlantis Shirley Andrews, 2018-02-07 You know of it through song and legend: the golden civilization of Atlantis, which sank into the cold depths of the sea ages ago. But few know the truth about Atlantis or the geological and metaphysical evidences that suggest it really existed. What have scholars unearthed of Atlantis society and history? How about its mystical and religious beliefs, art and architecture, and its peoples knowledge of science and healing? Is it possible that the tremendous achievements of the Atlanteans were aided by extraterrestrial contact? Shirley Andrews uncovers the living legacy in Atlantis: Insights from a Lost Civilization, a compelling new look at a legendary country once situated on the Atlantic Ridge. The author has traveled extensively to conduct her own comprehensive research, which she synthesizes with the work of hundreds of other Atlantis researchers classical and modern scholars, scientists, and respected psychics like Edgar Cayce. Survivors of this fabled land have made their mark on cultures all over the world, and their descendants walk the earth today. Learn how the legacy of Atlantis can help us bring our own world into a new age of peace and enlightenment.

Children of a Living Universe Von Ward, Paul, 2014-04-01 This book is an articulate, well-researched, intelligent compilation of new and ancient data that explores the implications of the extraterrestrial origins of the human race. The primary stories of our origins (religious versions/Darwinism) are called into question when held against scientific evidence and recorded histories of many cultures. Among Von Ward's startling conclusions are: The universe is self-manifesting, self-directing, and self-learning Everything that is (including the human race) is a manifestation of the universal consciousness Intelligent human life is much older than is popularly believed Human consciousness mirrors that of the universe's creators Science and technologies of a millennia ago were as advanced as they are today Our consciousness is not limited to the world of the five senses With insight and clarity, Von Ward envisions that discovery of our true legacy will inspire a global renaissance of inner knowing and unprecedented social progress. Beyond earthly evolution, he sees humanity assuming its place as a part of a universal community of conscious beings, and fulfilling our potential to serve as galactic leaders. This is a brilliant guide to this new and essential process in human spiritual evolution.

Our Solarian Legacy Paul Von Ward, 2001 Our Solarian Legacy is a call to action unlike any other you may have encountered before. According to cultural historian and cosmologist Paul Von Ward, the time has come for human beings to reassess just about everything we believe about our ancestry and global past. Drawing upon forgotten prehistory, clues from the world's esoteric traditions, new research in consciousness, and subtle energies and sound reasoning, von Ward asserts

we are more powerful beings than either science or religion has led us to believe. He extols us to embrace a bold, new model of human existence, one that explains our celestial origins, multidimensional capacities and destiny as conscious cocreators of a self-learning and self-correcting universe. With great insight and clarity, von Ward envisions that discovery of our true legacy will inspire a global renaissance of inner knowing and unprecedented social progress. Beyond earthly evolution, he sees humanity assuming its place as part of a universal community of conscious beings and fulfilling our potential to serve as galactic leaders. Expanding our individual and collective consciousness will be an open-ended process, von Ward says, and will require self-initiation, self-instruction, and self-learning in resonance with the universe. Our Solarian Legacy is a brilliant guide to this new and essential process in human spiritual evolution.

Gods, Genes, and Consciousness Paul Von Ward, 2004 New edition published as We're Not Alone Whether you call them gods, angels, ETs, aliens, or spirit entities, sufficient proof now exists to make the case that history has been influenced by beings more advanced than humans. The evidence suggests they shaped our religions, genes, technology, and cultures. In fact, the impetus for modern civilization appears due to their intervention. Analysis of all types of reported nonhuman consciousness reveals a generic category the author calls Advanced Beings, or ABs. A review of sacred texts, myths and legends, and contemporary reports shows all such entities fit into a natural universe. It includes allegedly divine beings, heavenly hosts, guardians, ascended masters, and intelligences from other planets or other dimensions. Whether from the Pleiades or Yahweh's Heaven, historical, archeological, and scientific evidence now shows we've had their help along the way. While scientists, religious leaders, and governments continue to ignore or deny it, our very identity as a species and its psychological health hang in the balance. How to deal with the effects of such contacts lies at the center of a covert struggle for control of human consciousness. Startlingly, Von Ward explains why institutions do not want to address this question. And he shows how generations have been conditioned to ignore or suppress a significant part of their experience, despite the fact that thousands daily still claim contact with a God or another AB. How did humans reach the point where leaders claim to speak for God in such conflicting ways? Paul Von Ward, also author of Our Solarian Legacy, says resolving the religious and ideological divisions that energize modern terrorism requires people, East and West, to re-examine the origins of notions like divine revelation, chosen people, and a supernatural religion.

The World Before Ruth Montgomery, 1985-03-12 In 1971, Arthur Ford gave Ruth Montgomery six predictions, published in A World Beyond. Every one has come true! In The World Before, he and the Guides offer secret lore of the past

and startling new glimpses of the future. Here is the extraordinary story of Creation and the fabulous lost worlds of Atlantis and Mu, the past lives of Winston Churchill, Franklin Roosevelt, Jackie Onassis, Richard Nixon, Elizabeth Taylor, Richard Burton, and other celebrities. The World Before forecasts things to come, among them: -- A solution to the world's energy problem... -- A reduction in crime throughout America... -- The rise of a new national leader -- in Germany... The World Before -- the dramatic and exciting book that will capture the imagination of everyone who seeks a deeper understanding of the mysteries of life.
