Success metrics in business are based on business goals where fame does not always equate to fortune. Read this book to determine: Why striving for more Twitter

followers or Facebook friends than the competition is a failing strategy How to leverage the time and effort you invest in social media How to convince those who are afraid of new things that social media is a valuable business tool and not just a toy for the overly-wired Knowing what works and what doesn't is terrific, but only in a constant and unchanging world. Social Media Metrics is loaded with specific examples of specific metrics you can use to guide your social media marketing efforts as new means of communication.

Co-Creation Tobias Redlich,Manuel Moritz,Jens P. Wulfsberg,2018-11-19 Across several industries, we are observing a paradigm shift from traditional, firm-centric and top-down value creation to more open and collaborative approaches, also referred to as bottom-up economics. The boundaries of firms dissolve and external actors (customers, user, suppliers etc.) enter the domain of value creation by means of advanced information and communication technologies. These new and evolving patterns require a renewed and interdisciplinary understanding of how co-creation enables organizations to reshape business and society. With contributions from industrial and academic experts, this book provides deep insights into the theory and practice of bottom-up economics, and addresses the major opportunities and challenges that have emerged in the era of co-creation. A must read for decision-makers looking to innovate their companies' business models—from ideation to marketing. Dr.-Ing. Michaela Colla, K-GXI Leader - Industry 4.0 at Volkswagen Simply put, co-creation is the future of work. With technology morphing the way we work and young people wanting to tackle problems that matter, co-creation is the sandbox where the world can come together to solve big challenges. Plus, co-creation rapidly delivers products with built-in market fit. Megan Brewster, Vice President of Advanced Manufacturing at Launch Forth Successful leaders will co-create the future.
